

**List of Pesticide Products Prohibited from Use in Schools and Child Care Facilities
(AB 405, Chapter 566, Statutes of 2005)**

Pursuant to Education Code section 17610.1, the pesticide products listed below are prohibited from use on “schoolsites.” The term “schoolsites” is defined in Education Code section 17609 to mean any facility used for child care (other than family day care homes), or for public kindergarten, elementary, or secondary school purposes. The term includes the buildings or structures, playgrounds, athletic fields, vehicles, or any other area of property visited or used by pupils. Schoolsites does not include any postsecondary educational facility attended by secondary pupils or private school facilities.

The following pesticide products meet the criteria of Education Code 17610.1(a)¹, and therefore, are prohibited from use on schoolsites, effective 7/01/2007.

Product Brand Name	EPA Registration Number
ABG-3207 Plant Growth Regulator	71049-3-AA
Acaritouch	70231-2-AA
Algimycin PWF	7364-9-AA-8959
BloomTime Biological FD Biopesticide	71975-1-AA
Cidalcyn Disinfectant	81206-1-ZA
Cyd-X Insecticidal Virus	70051-44-AA
Dinotefuran 20% Turf and Ornamental	33657-16-AA
EcoTru	70791-1-AA
Flonicamid 50 WG	71512-9-AA
Fortrell Wellcare ADM Fiber	79427-2-AA
GF-443 SC SF	62719-55061-EX
Glissade	69592-18-AA
Greenclean Granular Algaecide	70299-4-AA
Oberon 2SC Insecticide/Miticide	264-719-AA
Octave	1677-207-AA
Outlook Herbicide	7969-156-AA
Outrider Herbicide	524-500-AA
Pak 27 Algaecide	68660-9-AA
Promeris For Cats	80490-3-AA
Puracyn Broad-Spectrum Disinfectant	81206-1-ZB
Resource Herbicide	59639-82-AA
Topflor Ornamental Plant Growth Regulator	67690-20-AA
Trilux Prop and Drive 5493A Black	2693-199-AA
Trilux Prop and Drive 5498A White	2693-199-ZA
VBC-30051	73049-55003-EX
VBC-30074	73049-55003-EY

Any vendor or manufacturer of pesticides is prohibited from making these pesticides available to a

school district by sale or gift.

¹These pesticide products are prohibited from use on “schoolsites” in accordance with Education Code section 17610.1(a) because they are registered for use in the State of California either: (1) conditionally^a, (2) as an interim registration^b, or (3) under an experimental use permit (EUP)^c, and contain either a new active ingredient or are intended for a new use. (Note: conditionally registered pesticide products that have fulfilled all registration requirements that relate to human health are exempted.) Also prohibited are all pesticide products that DPR canceled, suspended, or required phaseout of use.

^a California Code of Regulations section 6200 authorizes the Director to waive specific data requirements for pesticide product registration for a limited period of time to allow for generation of missing data. Most conditionally registered pesticide products are registered as such based on missing efficacy or phytotoxicity data.

^b Interim registration is established in Food and Agricultural Code sections 13161-13170. The statute allows an applicant for registration of the first agricultural use of a pesticide active ingredient to defer submission of no more than three efficacy or environmental fate studies (e.g., soil photolysis study, field dissipation study) for a period not to exceed three years, provided certain criteria are met. The product must be a significant component of an integrated pest management system, and reduce risk to the public and the environment. In addition, all data submitted to the U.S. Environmental Protection Agency to support federal registration must be submitted to DPR, and the product must not be expected to have a significant adverse effect on public health or the environment, or threaten groundwater.

^c Experimental Use Permits (EUPs) are defined in federal statute (Federal Insecticide, Fungicide, and Rodenticide Act, section 5). U.S. EPA issues EUPs; however, before an EUP pesticide can be sold or used in California it must also be registered with DPR. Restrictions are placed on the use of the pesticide, including an expiration date, limit on total amount of product to be used, limit on total number of acres to be treated, and a requirement for quarterly reports. Once registered with DPR, the product may be sold to specific California researchers to be used in research trials; however, the products are not available to the public.
